

Dear Chinmoy Sahu,

I am writing to provide confirmation that the **Emerging trend of Vancomycin Resistant Enterococcal Bacteremia in a university hospital in Northern India – An observational analysis** has been withdrawn from consideration for publication in *Access Microbiology*.

In line with *Access Microbiology*'s editorial policies the preprint of this manuscript will remain online at <https://doi.org/10.1099/acmi.0.000706.v1>. The preprint is marked up as no longer under peer review and any manuscript related to it may be considered for submission to other journals.

Kind regards,

A handwritten signature in black ink, appearing to read 'Joe Kelly'.
